

PAPERS IN CONNECTION WITH THE BUBONIC PLAGUE.

WEEKLY REPORT OF PLAGUE IN THE MYSORE STATE, EXCLUDING THE CIVIL AND MILITARY STATION OF BANGALORE FOR THE WEEK ENDING 21ST APRIL 1899.

I. The steady decline in the number of indigenous cases in the whole Province, noticed in the last week's report, continued during the week under report, as shewn below :—

	Total number of indigenous cases in the whole Province.	Total number of places in the Province in which indigenous cases occurred.
For week ending 31st March 1899	181	37
For week ending 7th April 1899	177	29
For week ending 14th April 1899	108	24
For week ending 21st April 1899	71	25

The number of places in which indigenous cases occurred increased by one.

Bangalore City.

II. The following are the figures in the City up to date :—

	Plague cases.	Plague deaths.	Total Mortality.	Normal recorded mortality in the same period.
From 12th August 1898 to 24th March 1899	3,334	2,655	7,209	835
Week ending 31st March 1899	*1	...	28	32
Week ending 7th April 1899	...	*1	41	35
Week ending 14th April 1899	32	35
Week ending 21st April 1899	55	35

There has been no indigenous case in the City for the past 5 weeks, continuously, and no case of any sort for the past 3 weeks.

A Notification declaring the City free from infection was issued by Government on the 17th April 1899, but it has been since held in abeyance until such time as the Civil and Military Station can be also declared free.

Although there was a rise in the total mortality, the Chief Plague Officer reports that as all the deaths were certified to and as the increase occurred chiefly among children under one year and among persons over 60 years of age, there is no reason to suspect that the increase is due to undetected cases of plague.

During the week, the number of arrivals was 1,828 as against 1,753 in the previous week, the number of departures 1,204 as against 965, and the total population of the City at the close of the week was estimated at 62,119 as against 61,506 at the end of the previous week.

III. The figures for the Health and Segregation Camps were as follows :—

	Remaining.	Admitted.	Discharged.	Developed plague.	Remaining.
Health Camps	563	28	17	...	574
Segregation Camps	1	23	...	1	23

The 23 contacts removed to the Segregation Camp during the week were in connection with two doubtful cases removed to the camp for observation of illness, neither of which were however subsequently considered to be plague cases by the Senior Surgeon or Chief Plague Officer.

IV. During the week under report there were 283 first and 3 second inoculations, bringing the totals to 34,123 and 1,384, respectively. No inoculated person was attacked with plague during the week.

V. As there were no patients in the Hospital, the figures under the various heads were the same as in the past week.

VI. The number of houses disinfected was 183 as against 195 in the previous week; of these 110 were deserted houses, 14 plague-infected and 59 were locked up ones opened under Government Notification number 5235—P. G. 21-96, dated 15th October 1898.

VII. During the week under report, permission was given to re-occupy 102 houses. No charge was levied for disinfecting 31 houses; 2 houses were disinfected by the owners and the charges realised from the remaining 69 amounted to Rs. 127.

VIII. The cost of road-work and earth-work in the Basavangudi and Malleswaram extensions, carried out during the week, amounted to Rs. 1,796 as against Rs. 3,048 bringing the total amount spent up to date to Rs. 58,430.

IX. The number of infected houses and houses unfit for human habitation demolished during the week was 11, the total number demolished up to date being 501. The number of houses removed for opening out the City during the week was 27, the total number of houses so removed from the commencement being 538.

X. During the week 10 persons were put on their trial for violating the Epidemic Diseases Regulation as against 3 in the previous week; 3 persons were acquitted and the remaining 7 fined in sums varying from 8 annas to 2 rupees each.

XI. During the week 577 incoming passengers, or a daily average of 82.43 were disinfected with their effects at the City Railway Station.

Mysore State, outside Bangalore.

XII. The accompanying weekly return shows the state of the epidemic in the Province. During the week under report the number of cases decreased in all the four affected districts of Bangalore, Kolar including Gold Fields, Tumkur and Mysore, while in Kolar district, excluding Gold Fields, there was a slight increase.

XIII. In the Bangalore district, excluding Bangalore City, the number of cases decreased from 12 to 7. In each of the taluks of Hoskote, Doddballapur and Nelamangala in which there were no cases last week, there was 1 case this week. In Devanahalli, the number of cases decreased from 13 to 10. In the Bangalore taluk, the same number of cases as last week, viz. 1.

none during the present week. The taluks of Anekal, Kankanhalli and the sub-taluk of Closepet have been now free for two, four and three weeks respectively.

XIV. In the Kolar district excluding Gold Fields, the number of indigenous cases increased from 2 to 4; Bowringpet contributing 3 cases and Kolar town 1 case.

In the month of March 1899, 93 houses were disinfected in the taluks of Malur, Chintamani and Kolar, and 111 houses lime-washed in the first two taluks.

Kolar Gold Fields.

XV. In the Gold Fields, the number of indigenous cases, it is satisfactory to note, decreased from 47 to 30. The following statement shows the number of cases and deaths in the several mines for the past 4 weeks:—

Names of places.	During the week ending 31st March 1899			During the week ending 7th April 1899.			During the week ending 14th April 1899.			During the week ending 21st April 1899			Remarks.
	Indigenous.		Imported.	Indigenous.		Imported.	Indigenous.		Imported.	Indigenous.		Imported.	
	Cases.	Deaths.		Cases.	Deaths.		Cases.	Deaths.		Cases.	Deaths.

Balagonpalli village	1	1	1	..	
Kalikothur	1	
Poojarpalli	1	
Kempankote	1	..	
Total..	75	47	1	47	40	30	31	

In the Gold Fields, the total number of places in which indigenous cases have occurred from the commencement is 29, of which 5 having been free for 4 weeks have been excluded from the above tabular statement. Of the remaining 24, 3 have been free for two weeks continuously, 6 places which had one or more cases last week had none during the present week, in 5 places there was decrease of cases, 2 places had the same number of cases as in last week, and only in 8 places was there a slight increase.

179 houses were disinfected during the month of March 1899 in various villages in Gold Fields.

The following statement shows the number of coolies working and the number of huts, etc., erected in the mining properties during the week :—

No.	Name of Mine.	No. of coolies in ordinary times.	No. during the previous week.	No. during the present week.	No. of huts evacuated and demolished.	No. of huts erected.	No. of old huts removed on to new sites.	No. of tenements disinfected and made habitable.
1	Mysore Mines*	4,281	3,792	3,812	460	137	302	150
2	Champion ...	5,467	4,035	4,313	236	109	234	40
3	Ooregum Mines ...	3,788	2,720	2,532	122	38	47	...
4	Nundidroog ...	2,300	1,169	1,245	1	27	2	...
5	Balaghat ...	650	578	543	107	35	30	...
6	Coromandel ...	956	382	347	79	109
7	Gold Fields of Mysore ...	233	94	197	6

* 4,000 Toncyanide Plant is idle, surface work still considerably interfered with, mill not running full time.

XVI. In the Tumkur district, there was no case during the week. In this District the disinfection of houses has been carried out to a very appreciable extent, the number of houses disinfected during the months of February and March 1899 standing thus :—

Tumkur Town	803
Do Taluk	1,679
Kottagere Village in Kunigal Taluk	98
Koratagere Sub-Taluk	229
Total	2,809

XVII. In the Mysore District excluding Mysore City, the number of cases decreased from 10 to 4, Seringapatam Town contributing 3 cases and Hinkal 1 case.

Mysore City.

XVIII. In the Mysore City the figures were as follows :—

	Plague cases.	Plague deaths	Total mortality.	Normal recorded mortality during the same period for the past 5 years.
For the week ending 31st March 1899	69	59	101	36
For the week ending 7th April 1899	64	54	101	31
For the week ending 14th April 1899	35	40	87	31
For the week ending 21st April 1899	26	18	51	31

There was a decrease of 36 in the total mortality and of 22 in plague deaths, while the number of plague cases decreased by 9. The disease has been steadily going down, and if the present rate of decline which commenced 7 weeks ago, should continue, it will not be long before the City will be practically free.

XIX. The total number of arrivals during the week was 1851 as against 1,493, that of departures 1,308 as against 1,253 and the total population at the close of the week was 63,332 as against 62,829 at the end of the previous week. With the decrease of plague, the permanent population is becoming steady.

XX. The figures for the Segregation Camp were as follows :—

	Remaining.	Admitted.	Discharged.	Died.	Remaining.
For the week	10	5	15
Since commencement	...	580	533	32	15

XXI. There were 4 first and no second inoculations during the week, bringing the totals from commencement to 29,883 and 94 respectively.

XXII. The Hospital figures were as follows :—

	Remaining.	Admitted.	Discharged.	Died.	Remaining.
For the week	51	1	8	2	42
Since commencement	...	254	78	134	42

XXIII. 64 houses were disinfected in the Mysore City during the week as against 99 in the previous week, the total number of such houses disinfected from the commencement being 2,418.

XXIV. 438 persons, or a daily average of 62.5 were disinfected at the Mysore City Railway Station.
